-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**CLAIMS 9-13 ARE PRESENTED FOR EXAMINATION**

In response to applicant's argument filed November 21, 2003 that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., the conditions of a patient in an ICU ) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

It would have been obvious under 35 U.S.C. 103(a) to treat a patient suffering from hypocalcemia to administer  $1\alpha$ , 25-dihydroxy-19-nor ergocalciferol in the amounts and over a period of from 1-4 weeks as set forth in the previous office action. The deficiencies in the serum levels of a patient in an ICU unit and one that is only suffering from hypocalcemia, if that be the facts, are neither set forth in the specification nor claimed claimed.

Applicants' arguments relative to the table presented in the Remarks filed November 21, 2003 are not persuasive since the claims fail to define the patient to be treated in an ICU differs from a patient that suffers from an individual with hypocalcemia. A hypocalcemic patient, when the symptoms are critical (the maldistribution of claim 13), would seek assistance in a hospital as set forth by applicant at page 2, lines 1-10. That applicants have determined the degree of hypocalcemia in said patients is unpatentable in view of the cited references.

The rejections under 35 U.S.C. 112 are withdrawn in view of the applicants' amendments to the claims.

The previous rejection under 35 U.S.C. 103(a) are maintained.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
